

12-4-20

Dear MVCTC Wolfpack Members and Families:

Please see the information below regarding virtual class meetings. Students are able to attend these meetings using their phone or a computer through the Google Meet format. During our remote status, students continue to be held accountable for their participation and in their technology classes. Students must attend daily virtual meetings with their classes at specified times. The times for virtual class meetings are posted on our website for each class. Teachers send out invitations for meetings to each student via their school email. In addition to that, students are required to complete their daily virtual assignments. Please keep in mind that our second quarter marking period ends on December 18th and failure to participate in class and failure to complete assignments will affect student grades and possibly their ability to remain in their vocational program. If you have any questions please contact your child's teacher to discuss their performance.

Class	AM Virtual Class	PM Virtual Class
Agriculture	9:00	12:30
Automotive	9:30	12:30
Carpentry	8:00	12:30
Computer Engineering	8:00	12:00
